

**Reduce Back Office Work  
by up to 50%**

**Transform your business into a "Best In Class"  
operation within 6 months.**

**Schedule your FREE Work Heuristic  
Assessment introduction today.**

#### **BEST PRACTICE DISCOVERY & TRAINING**

WD identifies what each employee does best with zero user disruption. Mix and match observed top performer practices to train a hyper-optimized workforce.

#### **AUTOMATION**

WD Automation agents perform increasingly complex and repetitive back office tasks resulting in huge labor savings without loss of data or control.

#### **OPPORTUNITY DISCOVERY**

WD process mining technology finds new ways to increase value by removing friction points, bottlenecks and by identifying new management objectives.

#### **CORPORATE MEMORY**

Protects your organization against loss of key employees by capturing and retaining existing "know how" and best practices across internal systems.

## **DISCOVER, IMPROVE, RETAIN ...REPEAT**

WorkDone's patent-pending "Expertise Capture" technology uses Artificial Intelligence to create virtual WD Agents that seamlessly automate business processes. Benefits include:

- Reduces labor, processing time and error rates in your MOST DIFFICULT tasks.
- Efficiency is additive as Agents become more capable and comprehensive over time.
- Employees are freed from mind-numbing tasks to pursue high value-added work.
